Letter,  
Received your letter of March 14th today...  
traffic delayed, but that's caused, no doubt, to my  
in answer.

Nice to hear of all the boys and instructors  
their commutation in the services. As for myself,  
I'll be a private and will probably still be for six  
months, having no desire to be an officer, but  
I'd like to be a glad private, for after all, privates are  
the ones who do the work, and officers really need some one to back  
their efforts.

I'll read that last paragraph and have almost  
forgot myself of its contents. Seriously, I think that they  
should be congratulated for their work, and more power to  
them.

At present I'm doing some rather interesting personal  
work, but other than that, I can say no more... you'll  
understand the reason.

As for receiving packages -- we receive practically  
anything we need right here... cigarettes at special rates  
usually, but I'd give almost anything to get ahold of  
the old salted peanuts. That's one thing we cannot get  
here... the local variety, both as if they were cooked in  
oil, as if you care to send a package the way, I'd  
be most appreciative. Reports to the Club and best of luck in  
your efforts.

Sincerely yours,  
Pat S. Harrington '07
